they kept underground for many months. In 1842, an american doctor called John Gorrie invented a machine to make ice. He used it to keep people cool when they got an illness called "yellow fever". By 1900, places that sold meat in the USA started to have fridges and today, nearly all homes in the USA have a fridge in their kitchen. We continue to use the same technology for fridges that we have used for a century. The problem is that a room with a fridge in it is a lot noiser and hotter then other rooms! Now people are designing modern fridges that are neither hot nor noisy. These are going to use less energy, too, so they will be more efficient.

### Reading Comprehension

### >3) Read the following passage, then answer the questions:

After finishing preparatory school at 15, some students choose to stay in general education but 60 percent of them go to technical schools. That's why the Egyptian government is giving due care to the technical education and more technical schools are being built nowadays. Students who join such schools learn skills that they can really use in the world of work. Because of the quick changes in technology, the skills that people need today are very different to what was needed ten or twenty years ago.

There are also different kinds of technical schools and each school teaches a different kind of technical skill. Students who do very well at technical schools can then continue to study at university. They can get very good jobs, such as becoming engineers. However, all jobs that need technical skills are important. Life would be impossible without electricians, nurses, electricians or farmers.

### >3) Read the following passage, then answer the questions:

Long after the discovery of electricity, man found out that he could use the great power of water to produce electricity. At first, man used waterfalls from high mountains . Later, he began to build dams across rivers to form a lake behind. The water is then allowed to fall under control through huge pipes to run turbines, machines which help to produce electricity. This runs into wires and is treated before it is used in homes and factories. Dams have also been built along rivers in the world to make full use of the water, so it nuns to the driest and least fertile lands to prepare them for farming. Now man uses the sun to produce electricity. Scientists never stop inventing new ways to produce energy which don't pollute the environment. Nowadays, the environment has become the main interest of both the people and the environment to live healthy.

#### 3) Read the following passage, then answer the questions:

Life was quite different in the past. Everything was not as it is now. Let's talk about just one thing. The railway has been one of the most important means of transport. This system provides cheap transport for both people and goods. Before trains were invented, people used to ride horses and camels for journeys across a country. During those days, the roads were poor and journeys which now take only a few hours, could take several days or even weeks. Moreover, trains could carry heavier things compared to horses and camels. There are many kinds of trains. The stopping train stops at every station, so it is slow. If you want the fastest journey, take the express train. You can sleep in the sleeper train as there are comfortable beds. All of the express trains have got air conditioning. You can also buy food and drinks on the train. Some people make rail cards to save their money. Trains are the cheapest and most comfortable means of transport.

Mona doesn't like to ask people for help. But it is hard for her to perform daily activities on her own. She is almost 13, yet she is no larger than a 5-year-old. Mona has trouble keeping her balance and can't walk very far. When she uses a wheelchair, she can't push it herself. Fortunately, Mona has a wonderful service dog named Sam. Sam lets Mona lean on him when she walks. He also pulls her wheelchair and turns lights on and off. When Mona drops something, Sam picks it up. Sam also helps Mona with everyday tasks at school. Uncle Saleh is fond of going to the cinema. We don't have a cinema in our town, so he travels to the next town to see a film once a month. He goes to the cinema alone though he has many friends.

GIANTS

Recently, we knew why from my mother. Uncle Saleh wanted to be an actor at early age. He waited outside the studios to appear in scenes, trying to achieve his goal as a film star. While he was looking for a small part in a film, he met a director in our town who offered him a role as an accountant in a bank. The part was small with a few lines, but important for him. He thought it was the beginning as a film star. In the end, the scene was cancelled and nobody told him. When the film appeared in Cairo, he took all his friends to see it. It was a terrible blow as he was not in it! Since then, he went to the cinema alone.

Mr Ahmed is a teacher of English at a preparatory school in a remote village in upper Egypt. He is proud of his job. He does his best to make his students fluent in English as he thinks it is the most widely used language all over the world.

CIANTS

Mr Ahmed is a good model for young teachers because he is updating himself all the time by attending a lot of teaching workshops and using the net for the same purpose. He is well liked and respected not only by his students but also by each one in his village. Though he is still single, he treats his students in a fatherly way. He inspires them to be good citizens who will form the future of our beloved country. He believes that teaching has a great effect on everyone.

Mr Omar's wife and children asked him to buy them a new TV set. So one morning, he walked to the bank. He drew five thousand pounds from his bank account. He put the money carefully in an envelope, and then he went to the bus station to take a bus to the town centre.

Then he changed his mind and decided to take a taxi. He thought that the money might be stolen if he took a bus. The taxi he took dropped him near a TV shop. He thanked the driver and tipped him. Mr Omar got into the shop and chose a smart TV. When he went to the cash desk and stood in front of the cashier to pay, he got a big surprise. The envelope had disappeared. Soon, he hurried out of the shop. To his surprise, he found the taxi driver waiting for him.

First, reporters find out about interesting news stories. They interview people and visit places to get information. Photos are often taken and they are added to some of the articles. After an article is

written, the information is checked by people in the newspaper office. They want the information to be <u>accurate</u>. The spelling is corrected, too. A headline is added so that readers know what the article is about. Finally, the order of the articles and photos is decided. Each newspaper page is designed on a computer. Then the complete newspaper is printed. The newspaper must be ready early in the morning, so people must work at night. The printed newspapers are collected and are driven to shops, where they are sold. Millions of newspapers are bought by people all over the world. Newspapers are not only bought in shops. You can usually read them online, too.

Health is better than wealth. One cannot exchange health for all the money in the world because health is the most valuable thing from God.

A sick person lives a bad life full of pain, weakness and suffering. He feels that he is a real trouble to his family. He loses the nice taste of food. You can enjoy good health if you practise suitable exercise, learn some interesting hobbies, get enough sleep and eat healthy food. So, one shouldn't eat more than eighty grams of fat a day. Egypt is a large country, so transport is very important. People in Egypt used boats and ferries thousands of years ago. You can still travel by ferry or boat today on more than 3,000 km of rivers and canals. 'The Suez Canal is one of the world's most famous canals. In 2015, the canal became 72 kilometres longer. After a project that took

just one year. Many more ships can now use the Suez Canal. The ships will bring about \$13 billion dollars of business into Egypt by 2023. Egypt was the first country in Africa to have a railway system. Its first railway line, from Alexandria to Kafr El Zayat. opened in 1854. Today, Egypt's railway system is more than 7.000 km long.

In 1904, Prince Aziz Hassan drove one of the first cars in Egypt, from Cairo to Alexandria. It took ten hours! Today, the journey takes less than three hours. Egypt now has more than 21,000 km of roads. Many people travel by coach. Cairo International Airport opened in 1963. Today, planes fly to more than 25 airports around the country.

Mr Jones used to travel by train and put his bag on the seat beside him to have more comfort. He said it was another passenger's bag. An old man arrived, looked at the bag and said, "Is this somebody's seat?". Mr Jones answered, "Yes. A friend of mine has gone to buy some sandwiches. He will return soon.

The old man said, "I'll sit here until your friend comes back." The train began to move and Mr Jones' friend didn't come back. The old man jumped up and said, "I'm sorry, your friend seems that he has missed the train. We don't want him to lose his bag." He threw it out of the window. ## Reading Comprehension (5 marks)

## Read the following text, then answer the questions. (5 marks) .

Should we work all the time without having a rest? The answer is that we can't continue working without stopping. From time to time, we need some rest to do some interesting activities. If we don't do that, we can make mistakes and our work might get worse. If we work all the time, we may lose the ability to think clearly and have no energy to continue working, so sleep is very important. It renews our energy. sports and games are also important especially for people who stay in closed offices. They are not able to do exercise. Some activities such as swimming and walking may give them a lot of energy. So, we shouldn't waste our weekends. We should try to forget all about our work. We can then enjoy ourselves.

John and Mary are from Sweden. Last year, they went on holiday to Spain. One night, they went out for their dinner. They looked for a good restaurant. Outside one restaurant, they saw a man and a woman. The man looked cool and he smiled. John and Mary greeted him and he answered them in Swedish, their language! They asked the man if it was a good restaurant. He recommended it and said it was excellent! He said it had the best food in Spain. John and Mary trusted the man because he was from their country and they went in. They sat at a nice table beside the window. They ordered paella. The waiter brought their dish. It was terrible! There were only two small prawns in it, the chicken was undercooked and the rice was sticky and horrible. Also, the water was warm. At the end of the meal, the waiter gave them the bill. It was very big! When they left the restaurant, the Swedish man was still there. John and Mary told him he was wrong about the restaurant; they said it was terrible, really awful! They asked him: 'Why did you recommend it? "Because I am the manager, he answered.

Mona loved watching the sky at night. It shined with so many stars. Sometimes, she would climb onto her dad's shoulders. She'd feel like a princess, sitting closer to those stars. One afternoon, her dad said, "We're going to the beach! Won't that be fun?" Mona wasn't sure. "Will my stars be there, too?" "Maybe," Dad said. So they went to the beach. But it was foggy that night - no stars in sight. "Let's see what happens tomorrow," Dad said. "Okay..." Mona frowned. The next morning, they went back to the beach and Mona gathered seashells. Mona found something strange. It looked like a big, orange, bumpy star. Had it fallen from the sky? And why wasn't it glowing? "It's not a star." Dad smiled. "It's a starfish. It lives in the ocean." Mona put the starfish in the ocean. They watched the waves wash it back home. Then Mona looked for more starfish. She liked stars and starfish.

Concorde, the world's fastest passenger plane, was developed by France and Britain together. They both dreamed of having a supersonic plane, and the project started in 1962. They have spent £1.5 billion on developing the Concorde, and it was tested for over 5.000 hours. The first passenger plane was introduced by British Airways and Air France in 1976. The Concorde holds many world records, including the fastest crossing of the Atlantic Ocean from New York to London, which was achieved in 2 hours 45 seconds! Flying at twice the speed of sound means that flying time was reduced by half, which is why the Concorde flight between London and New York is used a lot by business people and film stars you can leave Britain at 10:30 am and arrive in New York an hour earlier! Twenty planes have been built up to the present day. But there are no plans to build any more. Each plane is produced at a cost of £55 million, which makes them very expensive! They stopped using Concorde aircraft in 2003.

Back in 1900 a man was trying to sell sausages in the streets of New York. He boiled them and then kept them hot in a tank of hot water. Nobody was very interested until he started to shout, 'Get your hot dachshund sausages here!' A dachshund is a long, dog which looks something like a sausage. As a result he sold many more of his sausages. A newspaper reporter took a photograph of the sausage seller holding one of his sausages for a story in his paper. But he wasn't sure to spell 'dachshund', so he called it a 'hot dog' instead. And that's how the name started. The same salesman lent a pair of white gloves to his customers to hold hot sausages with. But somebody forgot to give him back the gloves. So went to a baker and asked him to make him some long pieces of bread to hold the hot dog in. This was such a perfect combination remained unchanged ever since.

Millions people all over the world like travelling. They travel to see other countries and continents, modern cities and the ruins of ancient towns. They travel to these places to learn about other cultures. It's always interesting to discover new things and different ways of life, to meet different people or to try different food. People who live in the countryside often like to go to a big city to visit museums and art galleries, things they don't have in their hometown. They like to buy from famous shops and to <u>dine</u> at big restaurants. People from the city often like a quiet holiday by the sea or in the mountains where they can sunbath or walk. Many tourists love taking photos of everything that interest them. People travel by train, by plane, by ship or boat and by car. All ways of travel have advantages and disadvantages. And people choose <u>one</u> according to their plans. The fastest way of travelling - is travelling by plane, but the most comfortable is travelling by ship.

Evey one has their own goal in life . In fact, life without achievements would be boring. To achieve our goals in life we have a lot of things to do . Bido has always been good at sports. He was able to swim when he was four. By the age of eight, he was the star of the swimming club. He was always able to beat the other boys. Bido was good at swimming, football, basketball and tennis, but these days his greatest sport is running. "I love it so much and it's my favourite" he says. In his last race, Bido was running against the best runners in the city. At the end of the race, he was able to cross the line first. His coach was delighted and told him he would soon be able to get a place on the national team.

Last year, I read a very interesting story which is called "Journey to the centre of the Earth" The story is about an adventure to the centre of the earth. The main character is a boy called "Axel" who lived with his uncle, Professor Lidenbrock in Hamburg, in Germany. Axel came to live with his uncle when his parents died. Axel was proud of his uncle who was a famous scientist. He Knew about the earth more than any other scientist. One day, Lidenbrock found a very old book in which he found out a description of a journey to the centre of the earth written by an ancient Icelandic scientist. Lidenbrock decided to make this dangerous journey and took Axel with him. During the journey, they saw wonderful things, animals and even strange people underground. They really had hard time but they enjoyed the journey. They were brave and helped each other, so they succeeded in making the journey. Finally, they came back to the surface of the earth safely.

There was an old man. He was a salt seller . He used to carry the salt bag on his donkey to the market every day. On the way they had to cross a stream عبرى . One day the donkey suddenly fell down the stream and the salt bag also fell into the water. The salt dissolved in the water, so the bag became very light to carry. The donkey was happy. Then the donkey started to play the same trick every day. The salt seller came to understand the trick and decided to teach a lesson to it. The next day he put a cotton bag on the donkey. Again it played the same trick hoping that the cotton bag would be still become lighter. But the wet

cotton became very heavy to carry and the donkey suffered. It learnt a lesson. It didn't play the trick anymore after that day, and the seller was happy.

Medo and Mezo were friends. On a holiday they went walking into a forest, enjoying the beauty of nature. Suddenly they saw a bear coming at them. They became frightened. Mezo, who knew all about climbing trees, ran up to a tree and climbed up quickly. He didn't think of Medo. Medo had no idea how to climb the tree.

Medo thought for a second. He'd heard animals don't prefer dead bodies, so he fell to the ground and held his breath. The bear smelled him and thought he was dead. So, it went on its way. Mezo asked Medo; "What did the bear whisper into your ears?" Medo replied, "The bear asked me to keep away from friends like you"

One sunny day, a lion was woken up by a tiny mouse running across his face. Rising up . angrily, he caught him and was about to kill him. The mouse was scared and told the lion, "If you would only spare my life, I would be sure to repay your kindness." The Lion laughed and let him go. It! happened shortly after this that the Lion was caught by some hunters using a rope. The Mouse heard the lion's roar and ran to help him. The mouse used his teeth to bite at the rope until the lion was free.

The lion thanked the mouse for saving him. He learned that a creature is a creature no matter how small. From that day on, the lion and mouse became friends.

## 3-Read the following, then answer the questions .

I'm a student and I only work as a tour guide during the summer, taking small groups of foreign tourists around London. I don't find this job boring. First, I meet the group, check the names, and make sure that everyone is on the bus then, I tell them what we are going to see .It's all quite simple. Each tour lasts about three hours, and I do the same tour twice a day, at 9:00 and again at 2:00. Of course, I have to speak very clearly, and I also have to answer a lot of questions. I sometimes have problems or troubles. Somebody gets lost, or leaves a camera behind. It's an enjoyable job and I meet lots of interesting people.
